

TeleMed2U:

Connect patients with specialists online

Primary care providers can easily connect Alliance members with specialists online using TeleSpecialty Care, a service provided by TeleMed2U. This service enables real-time provider visits through TeleMed2U's secure online platform.

On the TeleMed2U platform:

PCPs receive quick responses from TeleMed2U to schedule patient appointments. Members get convenient access to specialists from their PCP's office or from the comfort of their own home.

TeleMed2U has a network of 80+ board-certified specialists in various medical specialties, including:

- Cardiology.
- Dermatology.
- Endocrinology.
- Gastroenterology.
- Infectious Disease/HIV Medicine.
- Neurology.
- Otolaryngology.
- Psychiatry (through Caredon Behavioral Health).
- Pulmonology.
- Rheumatology.

How to Access TeleMed2U:

1. Select "TeleMed2U" when submitting a referral request via the Alliance Provider Portal.
2. TeleMed2U will contact your patient to coordinate and schedule all appointments.
3. TeleMed2U sends clinical notes from the consult back to the referring provider, increasing continuity of care and expediting follow up.
